Comments: Hello - thank you for the opportunity to voice comments on this matter. I have lived in the valley near this project for about 20 years, and I have seen first-hand some of the devastating effects that clearcuts can have on the area. From changes to the ecosystem to extreme landslides that have harmed some of my neighbors, the list goes on. I urge you to reject Alternative 1 for this project. We cannot continue to use these outdated methods of clearcutting when there is clear science telling us that it is not the right thing to do. Alternative 2 seems like a much better option that will not only protect the area, animals, and peace of mind of the residents of the area, but still get the proposed project done. Thank you so much for taking these concerns into consideration.
