Comments: I am writing in opposition to the proposed roller coaster project in the Cibola National Forest on Sandia Mountain. This is a sacred mountain to us, the Pueblo people of New Mexico. I propose instead of a roller coaster attraction that will desecrate the beautiful land, please create socially distant learning opportunities for our public school children. Create a learning center at the bottom of the Mountain, with an afterschool program that is affordable on a sliding scale. Please do not build a rollercoaster on the Sandia Mountain, it will result in years of hurt for our Indigenous communities.
