Title:

Comments: Please do not build this roller coaster on sacred lands! I live in the Trinity Alps in California and several miles of wilderness here are riddled with old, rotting equipment exposing the soil to rust and and THOUSANDS of rocks strewn about from their careless water cannon mining just one hundred short years ago. We are still dealing with the damage from then so if you build such a thoughtless thing like a rollercoaster on sacred land, who knows how long this will adversely affect the land for generations to come. YOU HAVE A CHOICE. We KNOW better than to do this. Find another way to make your profits. This is the last of what lands haven't been desecrated by our country's genocidal greed. DO NOT BUILD THIS ROLLERCOASTER.
