Comments: To whom it may concern,

I believe the project of building a rollercoaster to be ill founded. Not only is this mountain sacred to the Tiwa people, the amount of increased traffic year round is an environmental hazard - the emissions, the trash, the danger of cars to wildlife. There is noting suitable about this location. A mountain is an organism not a avenue for revenue. If we as a city are looking to spend money, such funds should go towards public housing.

Thank you,

Isaac Pushkin
