Title:

Comments: hello,

I strongly oppose the construction of this mountain coaster and stand with the voices of the indigenous peoples that have the knowledge and wisdom to know that this is a project that will ultimately harm the ecosystem of the area and desecrate sacred land. The construction of this coaster will impact animal migration, and the foot traffic will lead to deterioration of surrounding flora and fauna. I don't believe the benefits of the project will outweigh the detriment to the land and the people that call it home. Please listen to the voices that have the wisdom to know what is best for this land.

Delanie Baker
