Title:

Comments: It is my understanding that this project is attempting to be excluded from Environmental Assessment or Environmental Impact Statement. I believe this is unwise and inappropriate. We do not know what the cumulative impacts to the mountain, forest, wildlife and watershed will be with the addition of this mountain coaster unless it is thoroughly reviewed. The Sandia Mountains are sacred lands for the Sandia Pueblo people. Have they been consulted about this project? It would be inappropriate to move forward if the answer is no.

I urge you to not move forward with this project unless thorough environmental impact assessments have been completed and the Sandia Pueblo approves of this project.
