First name: Cameron

Last name: Frigon

Organization:

Title:

Comments: Preserving our mountains and their beauty is one of the most important things we can do for future generations. Not only do we need to consider the wildlife and ecosystems that exist in the proposed location but what our identity is as a city. One that values novel attractions over precious natural spaces or a society that cares only of tax-generating theme parks over the natural beauty that compelled this area to be settled.
