Comments: I am opposed to a roller coaster being developed in the Sandia Mountains. The commercial nature of this type of entertainment will lead to a large increase in a consumer merely seeking a entertainment value they could easily find in a metropolitan area such as the city of Albuquerque. The wildfire risk to the Sandia Mountains will grow exponentially with this mountain coaster. Too many tourists, who are unaware and uninformed consumers of wildfires, will inevitably end up igniting a catastrophic wildfire and burn our beloved mountain to the ground and permanently change the Cibola National Forest forever. It's common sense, it doesn't belong up there.
