Comments: This comment is regarding the Mountain Roller Coaster. The roller coaster is not a project that should be completed. Even if the actual machine does little damage to the environment, the increased traffic in that area will. Additionally, it is Indigenous and sacred land that should be so easily destroyed for profit. There are ways to safely and respectfully enjoy the environment and the beautiful area but all tourism ought to take into consideration the fact that this land is not ours. It was stolen from Indigenous peoples who lived in conjunction with nature. They should be granted final say and stewardship over the area. Similarly we should not put profit over the protection of the earth.
