Comments: I oppose the roller coaster proposal due to the fragile ecological nature of the Sandia peak area. There are very rare wildflowers in the region, and the wild animals such as mountain lions have so little space to roam as is. I am concerned about the noise and light pollution impacts. Finally, as an East Mountain resident, I believe having so very many potential tourists visiting negatively impacts quality of life for local residents, who enjoy the quiet and peace of living amongst nature. Thank you.
