First name: Lyddie

Last name: Austin

Organization:

Title:

Comments: Just as there is generational wealth, there is generational debt, and building this proposed design would be further endebting the white settlers of this land to the indigenous peoples. Do not go forward with this plan. Committing to this is committing to an act of white supremacy, and the public will look down on you for it. You are supposed to represent the will of the people, and the Pueblo have just as much a right in this decision as anyone.
