First name: Catherine

Last name: Cousland

Organization:

Title:

Comments: This proposed project does not have the best interest of wildlife, native land, and the residents who chose to live a peaceful life among the Sandia mountains. It's a cheap and degrading shot, with the main interest being tourism (MONEY). New Mexico is better than that. We are state that prides ourself in land preservation and honoring and respecting native inhabitants.

Please think of the bigger picture and not the dollar sign.

Thank you,

Catherine
