Comments: I'm writing to oppose the Sandia Peak Ski Area Mountain Coaster. Not only is the land sacred to the Pueblo of Sandia, but the increased amount of traffic to the peak would have a severely negative impact on the environment, such as noise pollution and increased litter. Pueblo nations have a right to their ancestral homelands, and the construction of this coaster would simply show that you believe otherwise. Listen to the residents of the Pueblo of Sandia and do not build this coaster.
