Comments: Sandia Peak Ski Area Mountain Coaster Project -

As a resident of New Mexico, and a general lover of the outdoors, I believe that proposing an idea such as a roller coaster for the Sandia's is not only foolish, but absurd. I worry for the ecosystems of our mountain if heavy traffic amplifies from such a project. The construction alone, would be concerning but once completed, the amount of littered waste and fire hazards would severely increase from an already alarming amount that already exists on a year to year basis. The conservation of this sacred land is needed and is important to the people who call this place home. Please do not move forward with plans for this project.
