Comments: I am commenting in opposition of the Sandia Peak Ski Area Mountain Coaster. It is horrendous to think that it's even being considered to have a giant coaster winding down the Sandia Mountains simply for entertainment and tourism. The ecosystem will be disrupted no matter how minute the impact proponents say it will have on nature. Building a coaster would destroy the one thing that makes the area special. Most importantly, the peak is known to be sacred to the Sandia Pueblo. Disregarding even this ONE reason, shows that New Mexico does not value its original inhabitants but instead perpetuates racism against them.
