Comments: I am writing in strong opposition to the proposed roller coaster on our beautiful local Native communities' sacred ancestral land. In addition to being detrimental to honoring these lands' sacredness by desecrating the space with a gaudy thrill ride, the environmental impact alone is grounds enough to stop this plan before it goes any further.

What draws people to the Sandias is the beautiful, wild, wide-open spaces-- not theme parks. I can't believe I am even having to publicly comment on this ridiculous proposal. Please think a few generations ahead and put a stop to this plan. It doesn't take much to see that there is someone behind this terrible idea that stands to make millions. Call this scheme out for what it is--- a terrible idea likely being pushed through so that someone can get rich.
