Title:

Comments: I am in opposition to the Sandia Mountain Roller Coaster, which would not add value to the area but would detract from the experiences that many people value in the Sandia Mtns and Albuquerque. This project is not appropriate development, particularly considering the sacredness of the mountain to the Pueblo of Sandia. This project should not be carried out or allowed by the forest service without a proper evaluation of the environmental, cultural, and social impact for local ecologies and communities.
