First name: Ingrid

Last name: Linde

Organization:

Title:

Comments: There needs to be a thorough review before this decision is made. I am afraid that this will be setting a dangerous precedent for disrespect of the Pueblos national lands. This development will directly disregard the wishes of the Pueblo population, whose ancestral land this is on. Not enough impact research being done in regards to environment, increased traffic, trash from tourism. This land needs our protection. I hope you will consider putting this plan for the ski roller coaster on hold until an agreement could be made.
