Title:

Comments: The proposed project will have adverse impacts on the environment, wildlife, hiking trails, mountain biking trails, and overall well being of the ecosystem. The mountains are a sacred place for those in the city to retreat to, a place where people can find rest and restoration. By building this coaster you will be drawing crowds who belong in the city amusement parks to wilderness, to trash and erode these beautiful mountains. Leaving yet another mess for future generations to clean up for the sake of a profit. Protect our Sandia's.
