Comments: I oppose the construction of the Sandia Peak Ski Area Mountain Coaster. I enjoy hiking in that area, and the coaster would negatively impact my enjoyment of and ability to obtain respite from living in the city by hiking in the mountains. But more importantly, I feel that such development would dishonor lands held sacred by Sandia Pueblo. It's bad enough we have a tram, a restaurant, radio towers, and a ski lodge on the mountain. I prefer that no more development is undertaken, and that the rest of the area is left as wild as possible. Thank you for considering my perspective. I have lived in Albuquerque for 28 years.
