First name: Corrie

Last name: Parrish

Organization:

Title:

Comments: I'm writing in against support for this rollercoaster. First and foremost- this project avoids All Environmental assessments due to its SUP. That has obvious impacts on the indigenous who find this land sacred and wildlife/conservation. Second- this is not outdoor recreation. If it was, all amusement parks would be national parks. Further, you need to think of not just your demographic now but in the future. My family would never ride this despite visiting NM yearly. Put your resources into environmentally and family friendly activities that are LNT.
