First name: Maria

Last name: Barba

Organization:

Title:

Comments: I strongly oppose the development of a rollercoaster on Sandio land. Introducing this "recreational" activity will bring harmful environmental effects to this area, introducing new elements not normally common in these lands. Additionally, it is imperative that the Pueblo community is in conversation and in complete agreement of this decision considering they are the indigenous community that inhabit this lands. Currently they are not. Please reconsider this attraction and it's harmful effects it will bring to this community.
