Title:

Comments: I'm shocked by the blatant disregard for nature that this proposal shows. Not only is it a bad idea, it is arrogant and a waste of resources. I'm sure whoever came up with it got a big pat on the back and that the whole room cheered for him. Were there any Native people present in that room to give their 2 cents on Chad's fantastic roller coaster idea? This is the kind of thing that 10, 20 years into the future will be an eye sore and an embarrassment to the state of New Mexico.
