Title:

Comments: I stand in strong opposition to the roller coaster project, these mountains are no place for another strain on precious ecology, and must not go forward. It would most definitely have an adverse effect on the environment and a project like this calls for extensive Environmental Impact Assessment, which is being categorically excluded from the project. That is unacceptable. This is a matter of respect for the Pueblo of Sandia as well.

Thank you for your time and I urge you to oppose this project.
