Comments: While I understand that the Sandia Ski Area needs to make money to stay in business, I prefer that recreation in pristine areas such as this be more physical and less mechanized. A mountain coaster will draw lots of people, increase traffic on the road, and eliminate opportunities for enjoying solitude in nature. I feel we have enough opportunities for passive entertainment. I am more in favor of hiking, mountain biking, and skiing where one can feel more a part of nature, rather than observing nature from a coaster seat.
