Title:

Comments: I urge you to not desecrate these sacred lands in The Sandias. Do not build on this land, least of all a roller coaster. I strongly oppose this proposal, and I support the rights of the Pueblo people to protect their land. Roller coasters erode the earth, and in this pristine place, it would be incredibly destructive to build on this land. If an Environmental Impact Statement was done properly then you would know that. For these environmental and ethical issues, I stand against the building of any roller coasters or entertainment industries in the Sandia Mountains.
