Comments: To whom it may concern,

This comment is about the proposed project, "Sandia Peak Ski Area Mountain Coaster #56985." I am concerned the Sandia Pueblo community has not been consulted about ancestral lands being used for a highly controversial project such as a roller coaster. I am also concerned that EPA standards may not be fully followed in completing an Environmental Assessment or an Environmental Impact Statement as this project is considered to bring a minimal amount of new disturbances.

I would request that in-depth analysis, and in-depth conversations be had with local Sandia Pueblo community to ensure that this project not permanently affect an incredible area of the national forest.

I may not currently live close to where this project would be taking place, but our public lands belong to us all, and are this country's most precious resource. I would respectfully request the most care be taken when considering the implementation of such a project.

Thank you for your time.
