First name: elizabeth

Last name: nevada

Organization:

Title:

Comments: i am elizabeth nevada, but i go by lisa. the proposed region for this vulgar action is on my homeland and i find the proposal of building a rollercoaster on this land unsettling and worrisome. with utmost respect i urge that this proposal be struck down and not to be considered in the future. we are the stewards of this land and building a rollercoaster on the sacred Sandias is a grave sign of disrespect to our homeland and the earth. i cannot imagine the amount of destruction and disruption of vital ecosystems this project would bring to our home, not to mention the resources needed for the infrastructure and subsequent upkeep of the project. i say no. no, to more destruction of this land for the sake of human consumption and human gain.
