Comments: Thank you for providing the opportunity to comment on this issue. I care about the Wild Rapid River watershed because it is pristine and should remain so. The impacts of motorized use would be detrimental to water quality, wildlife and plant habitats. I enjoy hiking the trails without motorized disturbance.

Allowing motorized recreation on these trails violates Congress intent to protect the entire watershed through the Wild Rapid River designation.

Please take action and permanently prohibit motorized travel in the Congressionally-designated Wild Rapid River watershed.
