Comments: Please do not let personal profit be the primary motivator in decisions regarding the stewardship of our precious lands and waterways.

I have been a resident of whatcom county for over 40 years and seen the consequences of shortsightedness. Please read carefully the well researched documents regarding these issues. We have an intricate and fragile ecosystem that we are mandated to protect it for future generations. In light of world conditions the pristine beauty of our natural world will be an ever increasing healing element in put lives. Please consider carefully your actions.

Thank you.
