Title:

Comments: To Whom it may concern:

I speak to you as a Grandmother and Great-Grandmother. If you are blessed with children and someday Grandchildren, I ask you to take No Action against the Heber Wild Horses for your future generations. Your choice is not only about the Horses, which this cull will destroy, but negatively impacts your children and grandchildren, who will never have the opportunity to see these Wild and Free Horses.

Thank you for your time,

Deeply Concerned
