Comments: I want the Heber wild horse herd protected! Since 2018 they've been the target of illegal hunting and you need to find out who did this and stop him /them! Your plan is to lower the herd's numbers to dangerous levels, combining rounding them up and using contraceptives. Regarding contraceptives, IUD's are inhumane and should never be used on wild horses! The resources granted on the land for these horses are a fraction of what you're granting livestock, this is their land and they need to be given more of it! Please don't harm these horses, protect them instead! They belong to all of us Americans!
