Title:

Comments: One wild horse per 394 acres. You would have everyone believe this is too many wild horses.

Anyone who has not been brainwashed with your lies knows you only want the wild horses dead so you can make cattle ranchers happy, why, I don't know. For money I am sure, but I don't know how you get money out of it. I don't care I only know it is WRONG. I hope someone will get elected sometime that will stop you and the BLM and the cattle ranchers from the evil you have done.
