Comments: THE AMOUNT OF HORSES COMPARED TO THE COWS ALLOWED ON THIS LAND IS WAY TOO LOW. JUST LOOKING AT THE NUMBERS YOU CAN SEE HOW UNBALANCED IT IS. IF RANCHERS CAN'T TAKE CARE OF ALL THOSE COWS WITHOUT ENCROACHING ON THE HORSES TERRITORY, THEY HAVE WAY TOO MANY COWS!

PZP HAS BEEN PROVEN TO WORK AT KEEPING HORSE POPULATIONS DOWN. NO OTHER METHOD WORKS AS WELL AND IS SO STRESS-FREE FOR THE HORSES.

PLEASE REMEMBER THESE POINTS WHEN YOU MAKE YOUR DECISION. THANK YOU.
