Last name: Ivey

Organization:

Title:

Comments: Just stop this nonsense now! These horses are a piece of American history and heritage! They are one of the many animals that represent this nation and yall are killing them! For what? For cows? Cows that are native to persia?! That's where cows come from and yall want to remove a native species for a foreign one? The organization wanting to remove these horses needs to be shut down and its employees dealt with! Criminal charges need to be pressed for the termination of these beautiful horses! If I have to stand alone I will and I dont care if it takes every ounce of blood and every last breath in my body to stop this from ever happening again! Not one more mare foal or stallion should fall!
