First name: Lila-Dave

Last name: Zastrow-Hendrickson

Organization:

Title:

Comments: Cattle are given nearly 10 times the grazing territory as horses and burros. This should be equitably adjusted.

Horses outside the territory should be returned to it.

PZP should be the preferred population control. The horse/burro population should be large enough to sustain a diverse and healthy population. These populations should be protected from illegal hunting.

Humane methods of culling the herd, like adoption should be used.
