Comments: A parking lot and a decent trail to access the snowmobiling area near Purgatory is long overdue. The USFS has been dragging their feet on this too long, which isn't making anyone happy. Currently the parking situation at Purgatory is unacceptable to both skiers and snowmobilers. Put in a decent trail, which can be used by snowmobilers of all ability levels, and put in a decent sized parking lot. I'm aware of how much the USFS employees in this area detest all motorized users, but your personal feelings aside, we're not going anywhere. Give us our access!
