Comments: I VEHEMENTLY OPPOSE the removal of any wild horses from the Sitgreaves National Forest!!! Especially when it is for the explicit reason to make room for more livestock graze. There is nearly 20,000 acres, yet you want to reduce the wild horse herd to 50 horses !!! And yet you allow about 500 cow a of pairs to graze ?! How is that responsible or even logical ??!! PLEASE leave our wild horses to live safe and free ???!!!
