Comments: The American public is well aware - big thanks to the AWHC - and is shocked and disgusted by the actions of the BLM with America's wild horses and burros. The deep-pocketed cattle barons want the same land our wild horses graze on to increase their herd\$ and their profit\$. How and why the BLM cooperates in this evil relationship is another example of our governments corruption. I say shape up, or Joe Biden will have YOUR hide! He stopped slaughter in the 109th congress and he will do it again.
