Comments: Growing up in Cordova and working for Points North Heli has been the greatest experience of my life. There's so much they offer for many people. The new forest service permit will be so helpful for keeping the dream alive and well for many years to come. Not only will it provide more area, but will make operations safer for our clients. Out of the 16 years I've worked here I've learned so much. Our professional staff keeps everyone safe at all times. Having all the knowledge and skills to operate safely is what Points North strives for. All the staff love Cordova and the people who live here. We want to continue to respect the land and all animals who reside here for as long as we are here. I know having the permit will be a good thing for everyone. I've seen the company grow a bunch and would love to see it grow more.
