Comments: I am a resident of Alaska and the Chugach National Forest is the reason I moved to Alaska back in 2016. I look forward to exploring this otherwise inaccessible region of the Chugach National Forest more with Points North. This opportunity will give me a greater awareness and understanding of our national forest lands by being able to see and experience the Chugach in all its depth and beauty. I 100% support this permit for Points North Heli Adventures.
