Comments: We are submitting comments to OPPOSE wild horse and burro round up at the Heber National Management Area. Our wild horses and burros are expected to be seen, viewed and enjoyed by people living in the area, or just visiting the area. Our magnificent wild horses belong on our Landscapes. They form strong family bonds and have groups of bands that are vitally important to them and to the lands. These majestic animals have a God-given right to their freedom, and that needs to be respected. These are our National Treasures, our Icons of FREEDOM, our icons of majestic BEAUTY. Please leave them ALONE TO LIVE AND THRIVE IN PEACE.
