Comments: Ladies and Gentlemen,

I oppose the capture and roundup of wild horses for the purpose of relocation and slaughter. I and others like me fought hard here in Texas to stop and do away with slaughter factories and eventually they were closed down.

I have no attachments and can cite to court cases for my views. I am 81 years old and will feel deep remorse if any of my great grandchildren (11 currently) are deprived of the joy to see these magnificent animals in their own environment. Please leave nature alone.
