Comments: Please, please,please leave the herd intact they were here long before you and I and it's their home. What you are doing is WRONG! You know it. You are sworn to protect them, why do you want to kill them??? And you don't have to send them to the slaughterhouse to kill them, they live wild and free let them be. If you don't want to protect them anymore let SWHMG do it! They do a fantastic job with the salt river herd.
Shame on ALL OF YOU FOR THIS!!!
