Comments: Thank you for the opportunity to comment on this proposal.

I must like Heli-skiers, especially the uber athletic ones that are good skiers. I watched one of those ski pretty much straight down Mt. Eyak from top station to the lift line without taking a turn! He was smooth on skis and fun to talk to. I guess I think it's neat to have PNH around, and their current set-up, where they fly out of Orca without buzzing town and local ridges, or skiing on front range terrain, is a good one.

However, I am concerned that expansion of PNH activities, in areas that overlap local use in zones 10, 11, and 12 of the proposal, will negatively impact quality of life for residents of Cordova by:
*disturbing wildlife,
*negatively impacting hunting opportunity for mountain goats, and,
*diminishing the quality of the backcountry experience.

It's really neat that in Cordova you don't have competition for fresh tracks. These are big mountains and there is plenty of terrain that PNH can expand into, if needed, without overlapping existing local use.

Sincerely,
Kate Arduser
