Comments: I'm new to town but it's easy to see how special Cordova and the Chugach National Forest are. After familiarizing with the town and PNH staff over the past 2 years, it's very clear that everyone cares a great deal about this town as well as the surrounding mountains, landscape and wildlife. I support this permit because it will allow for safer access to otherwise very remote terrain + PNH does not have any interest disturbing wildlife nor the town or single-day locally accessed terrain with its helicopters.
