First name: Carlyn

Last name: Ring

Organization:

Title:

Comments: I disagree with your thinking on the handling of rangelands. You have such difficult situations with the inspectors living in same communities as the rangeland operatives of your community.

The treatments of and the rules regulating the rangelands are of great import to me. I cannot express it more completely as was done in the material above. I am 91 years old. Please heed what we are sending and follow our suggestions. Carlyn Ring
