Comments: To whom it may concern:

I support Points North Heliskiing fully in this process. PNH has allowed me over the past 7 seasons to explore the Chugach and the National Forest through guided heli skiing in ways that I would never be able to. I have been with other operators and PNH especially impresses me with their safety and care for the National Forest and the environment. Without PNH I would have never visited Cordova where we continually support the local economy by visiting restaurants and shops especially during the winter when it seems our helicopter groups are much of the local tourism. PNH is a truly special outfit and would be perfect stewards of the Chugach and the National Forest. Please support their attempts to get us to these areas.

Thank you,
George Tschiporikov
