Comments: Hi Folks.

Just a quick note weighing in on Points North's application to access by helicopter peaks in our Chugach Range. This company has proven to be topnotch in their business acumen the past twenty years while here in Cordova. Beyond their use and care of our beautiful mountains, Points North has been an invaluable asset when calamity strikes in the form of avalanches and providing slope conditions to our own winter sports enthusiasts. I would welcome this Company with open arms.
