Comments: I want to express my desire to keep these horses free and wild on the land they presently occupy. If the herd is responsibly managed in a partnership of volunteers and the appropriate government agencies, I believe they can stay and thrive like the Salt River wild horses. I do not believe they are a threat to the vegetation any more than the cattle that is allowed there. If a reasonable management program cannot be created, then I wish for the wild horses to live out their remaining lives in a humane and nearly-wild alternative. Thank you.
